Personal Profile

I am a passionate artist with a lot of ambition to achieve my goals. I love to perform in many different kinds of movements and styles to fascinate and inspire people with my versatile talents. In my opinion life cannot be better if you are surrounded by people who are cheerful, vivacious, a little bit crazy and tolerant, like me.

Objective

To be a member of a team with other talented artists is the best, learning new things and sharing knowledge, so the mixture of everyone gives a big unique piece of art. Hanging out together, hardworking, laughing and having a special period of life together.
